

UPDATE of ATTENDANCE PROCEDURES during COVID, School Year 2021-2022

For the School Year 2021-2022 attendance will be taken as usual with the **following additions**:

QC- Quarantine Certified (School) – school informs family the student was exposed or showing COVID symptoms and must remain out of school for a specified time period

QP- Quarantine Parent Note – parent informs school in writing the student was exposed or is COVID positive and is under quarantine per CDC or local health department guidelines

These codes will be entered into the student's record by the school attendance secretary. Codes can be entered for the entire quarantine duration at the time of quarantine notification.

If a child has to be quarantined due to a COVID 19 exposure or illness, it is an excused lawful absence.

If the school would notice an excessive use of the QP code for an individual student, the school could still request a doctor's note.
